GMT+4

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

About Webinar

Scientex Conferences invites global participants to the “**3rd International Webinar on Global Healthcare and Medicine**” set for **May 22-23, 2025 (GMT +4)** virtually in Zoom Application. The conference, themed “**To Explore the Advancement and Emerging Techniques in Healthcare**” will explore crucial topics including public healthcare, oncology, gynecology, pediatrics, neonatology, dermatology, orthopedics, rheumatology, palliative healthcare, pharmaceutical science, neurology care, surgery, medicine, diabetes and endocrinology. Over two days, attendees will hear from distinguished experts through keynote speeches and oral presentations, and view poster sessions highlighting research by both scholars and students. This event aims to address current challenges and advancements in the field, offering opportunities for knowledge exchange, professional development, and networking. Join us to gain insights into the latest innovations, engage in discussions shaping the future of global healthcare and connect with leading professionals. Don't miss this chance to contribute to the evolving landscape of healthcare. ([click here for more](#))

Day 2 Concludes

***Note:** You are requested to be present at the event right from the introductory session as there might be some changes in the event schedule and so the presentation timings may vary. In that scenario, your presentation slot may get preponed or postponed by a fair deal of time (in rare cases) to ensure a smooth running passage of the program without any delay. So, we request you to please be prepared to present your work whenever your turn comes up. Your understanding in this regard is very much appreciated. Speaker slots are available. To book your slot, please mail us at primarycare@scientexevents.com
